

Project Manager

Location: Greater Bay Area

Sector: Packaging

Starting date: ASAP

Job Reference: CDS2025021

ABOUT THE COMPANY

Our client is a well-known company specializing in custom-made luxurious accessory and packaging solutions for high value-added brands.

RESPONSIBILITIES

Global Procurement Leadership

- Spearhead cross-continental procurement initiatives connecting European/Middle Eastern markets with APAC sourcing hubs
- Command end-to-end product development lifecycle (briefing > R&D > sampling > mass production > QA > logistics)
- Architect margin optimization strategies through smart cost engineering and value engineering

Enterprise Collaboration Excellence

- Orchestrate synchronized operations across design, commercial, QC, R&D labs, and logistics units
- Engineer resilient supply networks through strategic vendor capability assessments
- Streamline international freight operations with precision logistics planning

Value Engineering Expertise

- Deliver client-centric pricing models through data-driven negotiations
- Champion quality assurance via closed-loop corrective action systems
- Drive procurement innovation through lean process reengineering

Extended Value Creation

- Conduct global supplier audits and production capacity benchmarking
- Facilitate technical and business engagements for international clients during China visits
- Implement CSR frameworks across sustainable sourcing practices

REQUIREMENTS

- Bachelor's degree or higher in International Business, Supply Chain Management, Procurement, or a related field.
- Minimum 3 years of demonstrated experience in strategic sourcing, procurement, or international trade, preferably within the luxury, cosmetics, or FMCG sectors.

With over 10 years of experience, CCI FRANCE CHINE Recruitment Department supports companies in their recruitment needs and helps candidates find a professional opportunity across China.

To access more job offers, consult ccifc.org

- Strong data-driven decision-making skills, with the ability to interpret market trends, cost structures, and supplier performance to optimize procurement strategies.
- Proven ability to perform under tight deadlines and dynamic business conditions, managing multiple priorities with a solutions-oriented mindset.
- Combines creativity with pragmatism to develop cost-effective, scalable solutions while mitigating risks.
- Exceptional ability to distill complex information into structured recommendations for cross-functional teams and senior stakeholders.
- Advanced competency in MS Office (Excel for cost analysis, PowerPoint for presentations) and ERP/procurement software (e.g., SAP, Oracle) is a plus.
- Native or bilingual proficiency in French and English (written and spoken) is essential for client and supplier negotiations.
